EXPERIENCE

Sama Bahrain HealthCare Intern

Frontend Developer | 07/2024 - 09/2024

- Worked as a Frontend Developer for the Pet Care system.
- Developed mobile application and website pages using Ionic and Angular.
- Ensured responsiveness and a user-friendly interface across devices.
- Collaborated with the backend team to integrate APIs for real-time data.
- Implemented features for pet care services, including booking and profile management.

</> Skills: Angular , Ionic , Laravel , MySQL , Firebase Storage

PROJECTS

QuizHub

| Dec 2024 - Ongoing

- Created a Kahoot-like website using React for the frontend and Supabase for real-time backend functionality.
- Users can create quizzes, host them interactively, and participate with real-time leaderboard updates.

For more see: [LiveDemo](#), [Source Code](#)

</> Skills: React , Supabase , Vercel , Vite

QuizApp

| Oct 2024 - Dec 2024

- Developed a Flutter application enabling students to take quizzes with Firebase as the Backend-as-a-Service (BaaS).
- Students can register, log in, and participate in quizzes with real-time updates and user progress tracking.

For more see: [Source Code](#)

</> Skills: Dart, Flutter , Firebase services (Firestore , authentication , Storage)

Dental Clinic System

| Feb 2024 - May 2024

- Developed a web-based and mobile-based application using Dart and Flutter for appointment bookings in a dental clinic.
- Patients can register, log in, reserve appointments, and communicate with the facility via a built-in chat feature.
- Admins can create facility accounts, set limitations for each, and communicate with patients using the chat feature.

For more see: [Live Demo](#), [Source Code](#)

</> Skills: Dart, Flutter , Firebase services (Firestore , authentication , Storage , Hosting)

Questionnaire Website

| March 2023 - May 2023

- Developed a web-based application to create and manage questionnaires using PHP, HTML/CSS, JavaScript, and MySQL.
- Enabled users to register, log in, edit profiles, view quizzes, and participate in them.
- Admins can create, update, and delete questionnaires, as well as review user responses.
- Created multiple question types such as multiple choice, short answer, yes/no, and Likert scale.

For more see: [Source Code](#)

</> Skills: PHP, MySQL, HTML/CSS, Bootstrap, JavaScript, AJAX.

ABOUT ME

Motivated and ambitious junior software engineer who is dedicated to continuing to evolve with industry developments. Experienced in JavaScript, Dart, web development, and mobile development. Seeking real experience to contribute to relevant projects and develop as a software developer.
