EXPERIENCE

Array Innovation
Software Engineer | 08/2025 – Present

- Owned the mobile release process: built CI/CD with EAS Build from Bitbucket Pipelines, managed code signing across multi-environment builds, and automated App Store and Google Play submission with EAS Submit.
- Led the migration of a production React Native app to the Expo ecosystem (Expo SDK 57, React Native 0.86, New Architecture), replacing legacy libraries with maintained Expo modules.
- Hardened app security with certificate pinning (SSL pinning), code obfuscation, secure token storage and RASP, and performed a mobile security assessment with MobSF and Frida.
- Integrated crash reporting and performance monitoring with EAS Observe, and push notifications with Firebase Cloud Messaging (FCM).
- Designed and prototyped OTA updates with EAS Update.
- Contributed to REST APIs with Node.js, Fastify, Express.js and PostgreSQL (Sequelize), deployed on AWS.
- Remediated a known security vulnerability (CVE) by upgrading a Next.js web portal from v14 to v16.

Skills: React Native, Expo, EAS, TypeScript, Firebase, Node.js, Fastify, Express.js, PostgreSQL, Next.js, AWS

Ministry of Justice, Islamic Affairs and Waqf
Web Developer Intern | 03/2025 – 05/2025

- Built an interactive, accessible website from a Tajwid reference book.

Sama Bahrain HealthCare
Frontend Developer Intern | 07/2024 – 09/2024

- Built a pet care mobile app and website with Angular and Ionic, including booking and profile management, integrating REST APIs with the backend team.

Skills: Angular, Ionic, Laravel, MySQL, Firebase Storage

PROJECTS

QuizApp | 10/2024 – 12/2024

- Built a Flutter quiz app on Firebase (Authentication, Firestore) with real-time quiz updates and student progress tracking.

ABOUT ME

Mobile engineer shipping cross-platform iOS and Android apps with React Native, Expo and TypeScript, previously Flutter. Work goes beyond the UI layer: release pipelines and code signing, app security hardening and assessment, production monitoring, and Node.js/PostgreSQL backend work on AWS.

EDUCATION

B.Sc. in Software Engineering
University of Bahrain
09/2020 – 01/2025

SKILLS

React Native | Expo | EAS | Flutter | Ionic | TypeScript | JavaScript | Dart | SQL | Mobile CI/CD | Bitbucket Pipelines | Code Signing | MobSF | Frida | Node.js | Fastify | Express.js | PostgreSQL | Firebase | AWS | Linux | React | Next.js | Angular
