Sitra, Bahrain

EXPERIENCE

Ministry of Justice, Islamic Affairs and Waqf Intern
Web Developer | 03/2025 - 05/2025

- Converted a Tajwid book into an interactive website using Google Sites.
- Ensured the site was responsive and accessible on all devices.
- Improved site navigation and readability for better user experience.

Skills: Google Sites

Sama Bahrain HealthCare Intern
Frontend Developer | 07/2024 - 09/2024

- Worked as a Front-end developer for creating mobile app and website using Angular and Ionic.
- Developed the pet care System, implementing features like booking and managing profile.
- Created responsive, user-friendly interfaces for mobile and web platforms.
- Collaborated with the backend team to Integrate APIs.

Skills: Angular, Ionic, Laravel, MySQL, Firebase Storage

PROJECTS

QuizApp | Oct 2024 - Dec 2024

- Developed a Flutter application enabling students to take quizzes with Firebase as the Backend-as-a-Service (BaaS).
- Students can register, log in, and participate in quizzes with real-time updates and user progress tracking.

For more see: Source Code

Skills: Dart, Flutter, Firebase services (Firestore, authentication, Storage)

Dental Clinic System | Feb 2024 - May 2024

- Developed a web-based and mobile-based application using Dart and Flutter for appointment bookings in a dental clinic.
- Patients can register, log in, reserve appointments, and communicate with the facility via a built-in chat feature.
- Admins can create facility accounts, set limitations for each, and communicate with patients using the chat feature.

For more see: Live Demo, Source Code

Skills: Dart, Flutter, Firebase services (Firestore, Authentication, Storage , Hosting)

Questionnaire Website | March 2023 - May 2023

- Developed a web-based application to create and manage questionnaires using PHP, HTML/CSS, JavaScript, and MySQL.
- Enabled users to register, log in, edit profiles, view quizzes, and participate in them.
- Admins can create, update, and delete questionnaires, as well as review user responses.
- Created multiple question types such as multiple choice, short answer, yes/no, and Likert scale.

For more see: Source Code

Skills: PHP, MySQL, HTML/CSS, Bootstrap, JavaScript, AJAX.
